## IntoUniversity *A Day of University Life*

Year 11 IntoUniversity pupils were given the opportunity to spend the day at Birkbeck University.

*A Day of University Life* offers pupils an excellent opportunity to gain an insight into university life, not just by experiencing the university environment, but also by having the opportunity to consolidate college course choices by taking part in informative activities.

Pupils learn about the university application process and options available to them. They also have the chance to tour the campus, meet and talk to current university students and learn about the non-academic aspects of university life.

Our Year 11 pupils took every opportunity to ask questions to further their knowledge and understand what type of university and degree would best suit them.

**Pupil feedback:**

*"It was great!"*

*"We experienced adult life."*

*"It was amazing to see a university with a different lifestyle (night time and part-time classes) that includes everyone".*
