England call up for Platanos pupil

We are very pleased to announce that Wilfrid Santhe has again been called up to the England Under-14 Boys national basketball team this month.

The college has a well established basketball programme with Greenhouse, training many talented athletes to international standards each year. Wilfrid Santhe is following in those footsteps.

This is a remarkable achievement as Wilfrid has been playing basketball for no more than two years. It is an example of the rewards of tremendous hard work and unwavering commitment.

Wilfrid said: *"I am extremely happy and proud. I didn't think I could achieve so much in this amount of time. I have to thank my teachers for the encouragement and making me believe that I could actually achieve this."*

Congratulations to Wilfrid.
