Fuellers Academic Lecture Series, Spring 2018

On Monday the 5th March we were invited to a lecture hosted by Mr. Matthew Gordon entitled: *How can studying Maths and Science lead to exciting career opportunities?*

Matthew Gordon has three specific roles: those which involve giving parliamentary advice; his membership to the Fuellers and thirdly, the organisation of Royal Regattas.

Mr. Gordon addressed year 10 and spoke about his experience in engineering, giving us an insight into engineering coupled with his professional advice. We were shown different aspects of engineering and the requirements needed to pursue specific career paths within the field. The main message was how important Maths and Science are as individual subjects as they give you the foundation to explore any career in engineering.

We were all selected for this lecture because we expressed an enthusiasm for Maths and Science and a potential career in engineering. We are very grateful for all of the advice given and additional exposure to the information about what engineering is and the engineering industry.

By Holly Freitaz 10A4 and Caroline Alves 10A2

The pupils who attended the lecture were:

AGYEMANG Darrell	OSEI-PREMPEH Nathan
ALMEIDA-GARCIA Joao	OSMAN Yasmin
BOUZIANE Abdel-Djalil	RUEDA Jean-Paul
BUCKMAN Luke	SALEH Abdul Aziz
CHOWDHURY Harun	TALABOULMA Zied
CHOWDHURY Musa	THOMAS-ELLIS Kayon
CLOTTEY Janile	UZOUKWU Nzube
CONTRERAS LARA Esteban	WEHLIYE Asad
DIRIE Sakarie	XU Chung-Ping
DJABALI Mohammed	Oluwatobi Ayeni
FORD Jahiem	OSEI-PREMPEH Nathan
KITANDULA Umimi	OSMAN Yasmin
LOMBA Sabrina	RUEDA Jean-Paul
NGIENA Benedite	SALEH Abdul Aziz
FREITAZ Holly	ALVES Caroline
