Fuellers Academic Lecture Series, Spring 2018

On Monday 26th February, we had a lecture about a career in engineering where we learned a lot about this particular field. It was extremely interesting and informative. We focused on what takes place in engineering and what, specifically, an engineer does. We learned interesting facts about engineering such as 15% of engineers are women. This gives women the opportunity to step into this career. We also learned that 80% of products are recycled.

We got an insight in to the different types of jobs that go into engineering such as mechanical and electrical engineering, and the different subjects that are needed such as Maths and Physics.

On a whole, we had a deeper understanding of what a career path in engineering would be like.

Written by 9A pupils, Umme and Meriem

The pupils invited to this lecture were:

Year 9 Academic Leaders

| |
|---------------------|
| SCOTT Phoebe Anna |
| NEILSON Laney |
| NISHAT Habeebah |
| MOHAMMED ALI Meriem |
| JORDAN Reanna |
| THOMAS Jadashai |
| NGUYEN Kate |
| ALI Abdulqadir |
| CANDIDO Samantha |
| SANTOS Carolina |
| NUR Dahir |
| HYDARA Ummekulsum. |
| PIRIOS Konstantinos |

Year 8 Academic Leaders

| |
|---------------------------|
| BUI Emma |
| OBADINA-ADEBOWALE Rebecca |
| KHIAR Mohamed |
| HOLICKA Dylan |
| ABDULRAHIM Sumayah |
| JORDAN Shian |
| AKINBINU Folasade |
| DAVIDSON Oliver |
| PALACIOS ZUNIGA Alejandro |
| JAHAN Inaya |
| TIEW Vickie |
| YASSIN Umaymah |
