## What Career Live event 2019

On Friday 11<sup>th</sup> October, 110 Year 11 pupils attended the *What Career Live?* careers fair at Olympia London.

Here, our pupils were able to access information on everything from apprenticeships to university life. They were able to meet face-to-face with potential employers, universities and able to put their questions to leading career experts.

Our pupils met with different specialists from a large range of employers and were able to receive advice on career pathways, application processes and gain tips on how to get into top universities.

Additionally, some of our pupils were able to showcase their more creative talents, performing piano performances and singing to a live audience.

This eclectic showcase was beneficial to our pupils with the vast majority happy with the wealth of information that they received on the day.

*Some comments from some of our pupils:*

*"I know exactly what I need to do now to get into the career that I want."*

*"I was so excited to speak with different universities – I definitely want to go now!"*
